Through our continuing program of product improvement, specifications outlined in this brochure are subject to change without notice.

The FMC Club Coach. A unique concept in VIP travel and corporate hospitality. It was designed from the ground up to be exactly what it is—the ultimate in on-and-off road travel and liveability.

A custom-engineered chassis, four-wheel independent suspension, automatic transmission, power-assisted steering and brakes, and a rear engine all combine to provide a smooth, comfortable, quiet ride akin to that of a luxury passenger car. Its low, sleek, moving lines speak to how well it performs.

Quiet elegance, deluxe appointments, roominess, and a practical use of space are the marks of the Club Coach's interior. Two luxurious lounges for seating or meeting by day, converting to master suite sleeping accommodations by night. A full kitchenette with microwave oven, refrigerator, and wet bar. An attractive washroom. Ample storage space. Air-conditioning throughout, AM-FM Stereo. And color TV jacks.

The Club Coach by FMC, a blend of skilled engineering, advanced design, and quality workmanship. A versatile center for VIP and Corporate entertaining, travel, and off-road living.

The Club Coach

Impressive. Impressively Practical.
